ATI's dairy buffalo production, management training capacitates 27 farmer-beneficiaries from LuzViMin

CALABARZON - To help address various socio-economic constraints and poor dairy buffalo management, the Department of Agriculture (DA) - Agricultural Training Institute (ATI) CALABARZON capacitated 27 farmer-beneficiaries with knowledge and skills in dairy buffalo production and management.

DA-ATI CALABARZON partnered with the DA-Philippine Carabao Center (PCC), DA-Philippine Coconut Authority (PCA), and Villar SIPAG Farm School to deliver the capability enhancement activity titled "Training on Dairy Buffalo Production and Management."

The said training kicked off on Tuesday, July 16, and concluded on July 18 through a completion ceremony for

the aforesaid participants composed of program beneficiaries of PCA and PCC from various regions in Luzon, Visayas, and Mindanao.

Villar SIPAG Farm School (Bacoor City, Cavite) and PCC-UPLB (Los Baños, Laguna) served as training venues for both lectures and hands-on exercises.

Participants also bench-marked on the dairy buffalo management practices of The Rosario Livestock and Farming Cooperative members.

As it aimed at responding to the information and technology needs of existing and potential buffalo raisers alike, the module covered

crucial topics namely Body Condition Scoring, Nutrition and Feeding of Dairy Water Buffaloes, Animal Health, and Milking Procedure—shared by subject matter specialists from PCC-UPLB.

Handwashing best way to beat hand, foot, mouth disease: health expert

MANILA – Frequent and proper handwashing with soap and water prevent the transmission of hand, foot and mouth disease (HFMD), a health expert said Friday.

"We teach children to wash their hands after using the toilet, especially before eating. In fact, in a study in China, nakita nila na (they saw that) handwashing is an effective way to prevent HFMD outbreak," University of the Philippines-Philippine General Hospital Community

Dermatology Vice Chair Maria Christina Filomena Batac said in a media forum.

HFMD is a mild and contagious infection caused by human enteroviruses species A and enterovirus 71.

It is common among children 10 years old and below manifesting as vesicles or blisters on palms, soles, tongue, and buttocks.

Adults also acquire HFMD but they may have no or very few blisters.

Prior to the eruption of blisters, which takes seven to 10 days, infected children and adults may experience low grade fever, malaise, abdominal pain, cough colds and sore throat for one to two days.

"Sa mga bansang nagbabago ang klima, madalas nakikita ang hand-foot-mouth disease tuwing tag-init or taglagas (Hand-foot-mouth disease can be seen in countries where weather changes every summer or autumn)," Batac said.

"Ang hand-foot-mouth disease ay nakukuha lamang sa tao, hindi ito galing sa hayop, hindi ito kagaya ng foot and mouth disease na nakakaapekto ng mga baka, baboy, tupa at kambing (Hand-foot-mouth disease is only from humans, this is not similar to the foot and mouth disease affecting cows, pigs, sheep, and goats)," she added.

It can be spread through fecal-oral trans-

Huwag nang gawan ng isyu...

Hulyo 22, 2024 idaraos ang ikatlong State of the Nation Address (SONA) ni Presidente Bongbong Marcos sa House of Representatives, Batasan Hills, Quezon City Isang linggo bago ito, nag anunsyo si Vice President Sara Duterte na hindi siya dadalo sa SONA, Kasunod nito, may lumabas ding balita na 3 dating bise presidente ang hindi rin umano dadalo sa nasabing okasyon. Maraming nagpahayag ng ibat ibang reaksiyon, may pabor, may hindi, may nagsabing pulitika na naman iyan.

Sabi ng isang senior citizen na retired teacher, "Ay karapatan nila iyan at walang makakapilit sa kanila kung ayaw nila sa SONA. Iyong 3 ex-vice presidents, wala na sa eksena, lipas na ang panahon nila kaya ngayon ay ordinaryong mamamayan na lang din sila. Kaya walang problema kung ayaw nilang dumalo sa SONA. HINDI SILA KAWALAN. KAYA PWEDE BA, HUWAG NANG GAWAN NG ISSUE IYAN?"

Tahimik lang ang Pangulo, hindi siya nagbibigay ng anumang reaksiyon o pahayag. Marahil, okay lang sa kanya, at iginagalang niya ang saloobin at kagustuhan ng ibang tao. "Eh ano naman kung hindi sila dumalo sa SONA? Wa naman silang papel doon!," pahabol na komento ng isang empleyado sa isang LGU. Ang bawat tao ay may kanya-kanyang sariling kaisipan, kagustuhan, saloobin at karapatan. Hangga't hindi gumagawa ang bawat isa ng mga bagay na makakasama sa kanyang kapuwa, maglalagay sa buong bansa sa panganib at hindi rin Diyos, walang dahilan para pigilan sila sa kanilang kagustuhan, o pilitin sa ayaw nilang gawin...

Symptoms may take three to six days to show once a person is exposed to an HFMD patient.
The patient is contagious for five weeks because the virus can still be present in the feces from four to eight weeks, and for two weeks in throat secretions.
Batac said children younger than 6 years old sometimes develop onychomadesis or loss of nail, one to two months after HFMD.
She said some cases lead to severe neurologic disease like encephalitis, encephalomyelitis, and polio-like syndromes; and other complications like myocarditis, pulmonary edema, pulmonary hemorrhage and death.
There are no antibiotics and no antivirals for HFMD. It can only be managed through supportive treatment including medicine for fever and pain, hydration, proper nutrition, and sleep and rest.
In addition to handwashing, parents, guardians and carers are advised to disinfect commonly touched surfaces and toys to prevent HFMD transmission.source: (PNA)

Speaking at an assembly in Silang of about 4,000 BHWs and BNS from across Cavite province, Tolentino said that "the nation would

"Every day, our BHWs and BNS are at the forefront of delivering

basic health services. On the ground, you are our Department of Health, especially at the height of the COVID-19 pandemic," the senator told the audience.

As majority lead-

er of the Upper Chamber, Tolentino vowed to work for the passage of the proposed Magna Carta of Barangay Health Workers.

Tolentino likewise noted that it may be

high time to rename Barangay Nutrition Scholars as 'Barangay Nutrition Officers.'

This is in recognition of their contribution in monitoring and ensuring the nutritional needs of the community, especially the vulnerable sectors like mothers and young children, he explained.
