Ang lumalalang Kriminalidad sa bansa...

Noong 2023 at nitong early quarter ng 2024, nagpalabas ang Philippine National Police ng report na bumaba ang crime rate sa bansa. At iyan ay nalathala sa iba't ibang pahayag, ibinalita sa radyo at telebisyon. Marami ang natuwa at nagpasalamat. Hindi umano nagpapabaya ang pulisya at kumikilos, tinututukan ang katahimikan, kapayapaan at kaligtasan ng mga mamamayan. Ang nakapagtataka, araw-araw rin ay sari-saring karumal-dumal at nakakahindik na krimen ang nababalita, na ang karamihan pa ay mga sariling kapamilya ang may kagagawan at hindi lang basta sinasaktan, sinasalaula o hinahalay, kundi pinapatay pa o ibinibenta sa ibang tao kapalit ng kakarampot na halaga. Ano kaya ang tunay na dahilan at tila nawala na sa matinong pag-iisip ang mga taong gumagawa ng mga nakakarimarim na krimen? Kung iaanalisang mabuti, parang wala lang sa mga ito ang pumatay, mang halay, manakit ng kapuwa at hindi na naiisip kung ano ang nagawa nila sa mga biktima.

Nawalan na sila ng takot sa Diyos at sa batas ng tao. May nagsasabi, dahil diumano sa sobrang hirap ng buhay, nakakaisip gumawa ng masama ang ibang tao. Mayroon ding naniniwala na ang lahat ay dahil sa pagkalulong sa DROGA. Kung ang tao ay matino ang pag-iisip, kahit siya naghihirap, hindi siya makakaisip gumawa ng krimen, at sa halip ay magsisikap siyang makaahon sa kahirapan.

Tandaan natin, ang KAHIRAPAN AY HINDI DAHILAN PARA GUMAWA NG ANUMANG KRIMEN AT KASAMAAN. Ang pagkalulong naman sa DROGA AY DALA NG KAHINAAN AT NG KATANGAHAN!!!!!!

Alam mo kung gaano kasama ang epekto ng droga, ay bakit ka magpapatangay sa mga pushers? Naaakit sa mga mabulaklak na pananalita kaya naeengganyo sumubok? May sarili kang pag-iisip, at kung alam mong masama, hindi ka maaakit. Hindi ka magpapapaniwala sa mga nang-aakit, kasi HINDI KA NAMAN SIGURO TANGA? Marahil. kung hindi inalis ang parusang BITAY sa mga napapatunayang KRIMINAL, matatakot na silang gumawa ng kasamaan.

DAPAT IBALIK NA ANG PARUSANG BITAY. KAMATAYAN SA SILYA ELEKTRIKA. Baka sakali, mabawasan ang mga krimen, hanggang sa unti-unti na itong maapula. Baka matakot na ang masasama at magpanibagong buhay na sila. KAPAYAPAAN, KALIGTASAN AT KATAHIMIKAN ANG SUSI SA MAUNLAD NA PAMAYANAN…

Cordillera Administrative Region.

Angara likewise disclosed plans to map out crowded public schools, and the granting of vouchers to more learners from congested rooms.

"Well, tinitingnan din namin 'yung private schools kasi nag-offer din sila... Hindi masikip. Nakaka-spend sila ng oras doon sa mismong silid aralan hindi tulad nung nangyayari ngayon. May (We are looking at the offer of public schools ... It's not congested. They can spend more time in the classrooms. Unlike what's happening now, there's) double shift, triple shift," he said.

For the rehabilitation and repair of damaged schools, Angara said coordination with local government units, the Department of Public Works and Highways, and the private sector, among others, will expedite the restoration of infrastructures.

He cited the need for more funds to cover the damage to non-infrastructure resources including information and communication technology equipment, textbooks, and furniture which are not covered by the quick response fund.

Angara, meanwhile, urged the Asia Pacific education leaders and experts to work together and advance system tweaks that can help countries adapt to pressing climate changes, including building crisis-sensitive schools and strategic responses to ensure learning continuity.

"President Bongbong Marcos himself has instructed us to come up with smart, actionable answers. Gatherings like this allow us to borrow from your wisdom and shape our plans," he said in his keynote, citing the effects of natural disasters in the Philippines alone.

"You have arrived at the right time because a week ago, our schools would have been closed and we would be cleaning up the damage from three successive typhoons. This is the new normal, as known to many island states and countries hit by tropical monsoons in this part of the world," Angara added.

PISA preps

Angara, meanwhile, said that catch-up plans in preparation for the upcoming Programme for International Student Assessment (PISA) would depend on schools, considering the effects of weather disturbances.

"Depende na sa schools kung pursigido ang mga schools, principals, dahil minsan napapabayaan. Pero sinabi namin sa operations strand, talaga kailangan i-monitor iyong make-up dahil grabe iyong nakita namin, kakaiba iyong level ng mga absences ng mga bata (It's depending on the diligence of schools, principals, because sometimes it's neglected. But we told our operations strand to really monitor the make-up classes because we are really seeing a different level of learners' absences)," he said.

Before the consecutive weather disturbances, Angara said PISA-related questions have been incorporated into activities and quizzes to help learners familiarize with and prepare for the PISA in March 2025.

In the 2022 PISA, the Philippines landed in the bottom 10 out of 81 participating countries in reading comprehension, mathematics, and science; and second to the last in creative thinking. source: (PNA)

Pharmaceutical products designated for export must also comply with the regulations of the National Drug Regulatory Authority of the receiving country.

The FDA said the rules outlined in administrative order ensure that pharmaceutical products would not be adulterated or misbranded if they comply with the foreign purchaser's standards, follow the laws of the receiving country, and are properly labeled "intended for export".

These provide a significant boost for current manufacturers and future investors and the position of the Philippines as prime hub for pharmaceutical manufacturing, the FDA said. (PNA)

na mga kaso ng breast cancer dito sa ating bansa.

"Health is wealth," ika nga, kaya mahalaga na bigyan natin ng panahon ang ating kalusugan. Dapat lagi tayong naka-alerto sa mga early signs and symptoms ng mga nakakabahalang sakit, kasama na diyan ang breast cancer," sabi ng Senadora.

Ayon sa mga pagaaral ng World Health Organization (WHO), breast kanser ang nangungunang sanhi ng pagkamatay ng mga kababaihan sa Pilipinas, na may mga pagtatantya na isa (1) sa bawat labin-tatlong (13) kababaihang Pilipino ang maaaring magkaroon ng sakit sa panahon ng kanilang buhay. Sa buong mundo, tinatayang mahigit sa 2.3 milyong mga bagong kaso ng breast kanser ang nadadagdag bawat taon, ayon din sa WHO.

Tampok din sa Seminar ang kahalagahan ng pagpapalawak ng kaalaman at kamalayan tungkol sa breast cancer, na maaaring epekto nito sa mga indibidwal at kanilang mga mahal sa buhay, anuman ang kasarian.

"Sa pagtitipon ngayon, layon nating palawakin ang inyong kaalaman at kamalayan upang mas maagapan ang sakit na ito na maaaring makaapekto sa inyo, sa inyong pamilya, mga kaibigan, kapitbahay, o iba pang mahal ninyo sa buhay, babae man o lalaki," dagdag pa ng Senadora.

Tinugunan din ni Villar ang mga karaniwang paniniwala sa breast kanser, na ito rin ay maaring makaapekto pati na sa kalalakihan. Dahil dito, manawagan siya na mas paigtingin pa ang komunikasyon ng kaugnay na impormasyon sa kalusugan at pinahusay na mga kakayahan sa pananaliksik upang mapalakas ang mga serbisyo sa kalusugan ng publiko.

"Tandaan po natin na "information is a powerful weapon" and "prevention is always better than cure." Sabi ng Senadora.

"Sa pamamagitan ng pag-aaral at pagbibigay ng sapat na impormasyon of education and adequate information to prepare for health challenges effectively, " dagdag pa niya.

Bilang isang tagapagtaguyod para sa kalusugan at kagalingan, ay patuloy na Senadora Villar sa kanyang nasimulang adhikain ukol breast kanser, patunay sa kanyang dedikasyon at hangarin na mapabuti ang kalusugang publiko sa Pilipinas.

DepEd eyes Saturday, night classes to make up for suspensions

By Stephanie Sevillano

MANILA – Education Secretary Sonny Angara on Tuesday said Saturday catch-up classes or night shifts may be implemented after several weeks of typhoon-driven class disruptions.

In an ambush interview on the sidelines of the 2024 Regional Conference on Educational Planning in Asia at SEAMEO Regional Centre for Educational Innovation and Technology center in Quezon City, Angara underscored the urgency of make-up classes to prevent learning loss.

"Sinasabi namin na maghanda na, na iyong iba, Saturday classes na, atsaka yung iba, baka kailangan evening dahil depende sa availability ng teachers, depende sa availability ng (We are telling them to get ready, that others will have Saturday classes, while others may need evening classes depending on the availability of teachers and) facilities," Angara said.

Based on the DepEd's latest situational report, 20,860,818 learners and 883,822 teaching and non-teaching staff in 42,099 schools were affected following the onslaught of Super Typhoon Julian (international name Krathon), Severe Tropical Storm Kristine (Trami), and Super Typhoon Leon (Kong-rey).

In terms of school days lost due to other weather disturbances since August, Calabarzon logged the highest record with 26 days of class suspensions.

Besides Saturday or evening classes, Angara reiterated the pilot implementation of the dynamic learning program (DLP) this month to allow flexibility in learners' activities, as it involves utilizing "simple and targeted" activity sheets.

The DepEd earlier announced the pilot rollout of DLP in Ilocos, Cagayan Valley, Central Luzon, Calabarzon, Bicol, and
