Gov't eyes 1M daily vaccination rate beginning Nov. 30

MANILA – The government is eyeing to achieve its targeted average daily vaccination rate of at least 1 million up to 1.5 million doses beginning Nov. 30, National Task Force (NTF) against Covid-19 chief implementer Secretary Carlito Galvez Jr. said on Wednesday.

During the pre-recorded Talk to the People of President Rodrigo Duterte aired Wednesday morning, Galvez added the government also targets to administer at least 15 million doses of coronavirus vaccines before the end of this month.

To achieve this goal, Galvez said there is a need to activate around 4,000 to 5,000 vaccination sites operating nationwide and can accommodate at least 500 vaccinees daily.

If these sites can vaccinate up to 1,000 individuals once operational, then the targeted 5 million doses weekly will be achievable, he added.

"So we will be utilizing the [shopping] malls, universities, schools, gyms, military/police camps, and function hall of the different government agencies," he said.

Galvez, also the country's vaccine czar, announced that the government, in partnership with the Philippine Medical Association and its allied medical groups within the Rotary Club, will soon hold a National Vaccination Day "either November 20 or 30."

He said it will be participated "by mobilizing the NGOs, government agencies, private sector, and the volunteers," noting that the initiative will further accelerate the country's vaccination program.

The government is also mulling to fully vaccinate at least 90 percent of the education sector including teachers, students, and other school personnel.

Citing data reported by Commission on Higher Education (CHED) chair Prospero de Vera, Galvez said 87 to 90 percent of the teachers' population

DTI Cavite: BagsAndGO Travel Services in the Market

BagsAndGO Travel Services started as a home based travel agency on October 8, 2017 in Bacoor, Cavite. It is a sole proprietorship owned by Ms. Gloria Gambalan-Bagnol, a retired teacher.

When she retired, Ms. Bagnol wanted to have her own restaurant at first, but because of her family's fondness to travel, she ventured into tourism and travel business instead.

With the help of her family, Ms. Bagnol was able to come up with the company name-BagsAndGO Travel Services. Her husband and children are fondly called "Bags" by their colleagues and friends, short for their family name, Bagnol. Bags also mean "luggages" which travelers bring when they travel. For easy recall, they just added the word GO to signify action and activity/travel and the idea resulted to "Pack your Bags and GO Travel" which became the company tagline.

Young as it is but BagsAndGO is gearing to focus on its niche market which are family, corporate and pilgrimage clients. They already have reputable direct travel partners for domestic and international travels. They also have affiliations with Cavite Travel and Tours Association (CTTA), Network of Independent Travel Agencies (NITAS).

Aside from its DOT Recognition, BagsAndGO was also awarded as No. 1 Reliable Travel and Tours Services Provider by 1st Philippine Buyers' Choice Awards.

Ms. Bagnol joined the KMME-MME Multi-sectoral Batch this 2021 hoping to keep her business afloat amid

the pandemic. She described her KMME journey as an unforgettable experience wherein she never thought she can learn and at the same time, have fun.

Catholic Every Wednesday Reflections

Thank You, My Lord

Wednesday , Nov. 10

Jesus said in reply, "Ten were cleansed, were they not? Where are the other nine? Has none but this foreigner returned to give thanks to God?" Then he said to him, "Stand up and go; your faith has saved you." Luke 17:17–19

This reply from our Lord came in response to the one leper who returned to Jesus to thank Him. Ten lepers had come to Jesus, stood at a distance, cried out, "Jesus, Master! Have pity on us!" And with that, Jesus healed them all. But the heart of this healing is not as much the healing itself as it is the gratitude expressed by only one of the ten.

This Gospel relates to us that this one leper did five things to profoundly express his gratitude. He returned, glorified God, did so in a loud voice, fell at the feet of Jesus, and thanked him. What a wonderful witness for us all!

By analogy, children often take the loving care of their parents for granted. That's why many good parents regularly remind their children to say "thank you." In our relationship with God, we can also easily take God's saving actions for granted. We can easily see all the grace we receive as something we deserve rather than as an infinitely merciful gift. When that happens, we become more like the other nine who failed to properly express their gratitude to Jesus.

First of all, it must be noted that expressing gratitude to God is not done because God needs these accolades. He does not depend upon our gratitude to affirm His self-worth. This is obvious. God is God, and He does not need our praise in any way. However, giving profound praise and glory to God is essential. It is essential because we need this virtue of gratitude so as to daily be reminded that all we receive from God is an unmerited gift. We cannot earn His love and grace. We do not deserve it. But He chooses to bestow it anyway out of mercy. And the only appropriate response to mercy is gratitude. Profound gratitude.

Gratitude is essential because it is the truth. We should always return to our Lord after He has graced us. We should glorify Him with much fervor, crying out to Him with passion. We should, literally and interiorly, fall on our face before Him, at His feet, and thank Him, over and over and over again. Doing so will always help us to remember the truth that everything we have and everything we are is a gift from God. An unmerited and undeserved gift of grace.

Reflect, today, upon the depth of gratitude in your own heart. Do you often act more like a spoiled and selfish child, or do you regularly perceive the graciousness of God? If you lack in any way this fullness of gratitude, then ponder this one leper. His gratitude, expressed with the fullness of passion, is the most important part of this story. In the end, he was graced far more than the other nine because his healing produced faith; and it was that faith that saved not only his body but his soul. Seek to save your soul by imitating the faith of this one holy and healed leper.

My gracious Lord, You bestow Your mercy upon me in superabundance. Without You, Jesus, I have nothing; but with You, I receive everything. May I always know and understand my need for Your grace. And as I am gifted with it, may I respond with the deepest gratitude, thus, saving my soul through faith. Jesus, I trust in You.

were already vaccinated.

The government will also ramp up the vaccination of teaching personnel and secondary students under the Department of Education (DepEd), he added.

He said the administration of booster shots for medical workers and other healthcare personnel in the hospitals will be prioritized by the end of the month.

Galvez said the government also targets to fully vaccinate at least 50 percent of the population residing in high-risk areas such as Calabarzon and Central Luzon regions.

The huge disparity of vaccination rate in these areas compared to the National Capital Region must be addressed, he said.

He added there is a need to ramp up the vaccination of senior citizens as they are the most vulnerable to the disease.

"We will still concentrate on vaccinating senior citizens so that we can achieve [full vaccination of] at least 70 percent [by the end of November]," he said.

The latest data of the National Covid-19 Vaccination dashboard showed the Philippines has already administered a total of 60,406,424 doses, with 27,749,809 individuals already fully vaccinated and 32,656,615 others have received the first dose.

The average daily vaccination rate in the last seven weeks has slightly slowed down to 511,434 doses, compared to the previous week's 522,272 doses due to the observance of the All Saints' Day holiday.

However, health authorities expressed optimism that the country will be able to increase its average daily vaccination rate with the bulk of Covid-19 vaccines now being continuously delivered. source:(PNA)
