MANILA – Two road sections have been closed while four other roads have limited access due to the effects of Typhoon Jolina, the Department of Public Works and Highways (DPWH) reported on Saturday.

Citing the monitoring report of the Bureau of Maintenance, the agency said the road sections that are closed to traffic are in Bongabon, Nueva Ecija and Ternate, Cavite due to landslides.

VACCINE HESITANCY GIVES VIRUS MORE TIME TO MUTATE, EXPERTS SAY

The resource speakers on the 4th episode of DOST-NRCP's Expert Class: Vaccines and Vaccination. (Photo Credit: DOST-NRCP's Expert Class webinar)

"The longer we wait to get vaccinated, we are giving more time for the virus to mutate."

This was according to Dr. Gianne Eduard Ulanday, a virologist from the University of the Philippines and one of the panelists during the Expert's Class Episode 4: Vaccines and Vaccination webinar organized by the National Research Council of the Philippines (NRCP) of the Department of Science and Technology (DOST).

ment of Science and Technology (DOST).

"Vaccine hesitancy is the delay in acceptance or refusal of vaccines despite avail-

ability of doses. Now it's important to highlight this because we always hear about vaccine hesitancy in the context of COVID, but in reality, in many

places globally, including the Philippines there are no vaccines available for everyone who wants to get vaccinated," Dr. Mel-

New vaccination data system from DICT launched in Lgu Carmona

The Department of Information and Communications Technology (DICT) partnered with the Local Government of Carmona in the launch of the latest version of

DICT's Vaccination Administration System (DVAS) on Sept. 10.

The vaccine master listing and pre-registrations would be expedited under this

new version, said Emmanuel Rey Caintic, DICT Undersecretary for Digital, in a CNN Philippines interview [DICT to launch latest version of DVAS in Carmona, Cavite (cnnphilippines.com)], noting that this will benefit local governments in their immunization operations.

"After Carmona, we go back [to NCR]

and we will also install [the latest version] to all existing DVAS users na. Marami na po sila. There are about 140 LGUs live, and then there will be 191 coming soon this month and 114 coming in the next few months. So, we target as many LGUs as possible," Caintic said.

vin Sanicas, a vaccinologist, and member of The Royal Society of Tropical Medicine & Hygiene, said.

Ulanday added that the most important thing with the vaccine is the time, not the brand, and that there's no vaccine that is 100% effective, not only with COVID, but as with the other diseases. There's always that one percent chance that it's not effective.

"Rather than comparing between brands, on whether this is the best one, or this is a better one, this provides higher protection, longer protection, maybe we should focus on just getting what is available right now, to be protected, because all of these vaccine brands, they have full protection against severe infection, and that's what we're trying to prevent – severe infection," said Dr. John Mark Velasco, Physician-Scientist from the Institute of Molecular Biology and Biotechnology.

Currently, there are around 93 vaccines being tested in clinical trials in humans and 30 candidates

LGU Dasmariñas Bagyong Jolina aftermath: Clearing operation

Ang mga pangunahing opisina kapag dumarating ang anumang sakuna ay mabilis na nagkakapit-bisig upang maaga maka responde sa mga kababayan natin na naiipit sa kahit anong sitwasyon katulad ng mga nakahambalang sa kalsada na nabuwal na puno, electrical wiring at poste na napuputol at natumba dala ng malakas na hangin kasama na rin ang hindi maiwasang pagbaha sa mga pangunahing kalsada kapag ito ay umapaw na sa malalaking ilog hindi dahil barado ang mga kanal

kundi sa talagang mabigat na volume ng tubig ulan dala ng bagyong Jolina.

Pinangunahan ng maituturing na Junior Action Man ng Lungsod na si SPM Kiko Barzaga ang mga kawani ng iba't ibang opisina katulad ng Disaster sa pamumuno ni Mr. Reynor Calzado, Task Force at Traffic Management ni Ms. Ruby Barrion, Public Safety ni Ms. Ethel Tubog at iba pang volunteers na mga kawani ang lahat ng clearing at rescue operations kaya walang maituturing na major obstructions

Muling napatunayan na ang pagtutulungan at pagsasama sama sa kabila ng banta ng panganib ang mabisang laban para sa kaayusan sa ating lungsod.

Give new localized lockdown policy a chance: PRRD

disease 2019 (Covid-19) pandemic.

Duterte said the planned shift to localized lockdowns is seen as a more effective solution to stop the further transmission of the dreaded respiratory disease.

"I ask for a general public's continued

understanding and patience on this matter," he said in a taped Talk to the People delivered Friday night and aired Saturday morning.

This, after the Inter-Agency Task Force for the Management of Emerging Infectious Diseases (IATF-EID) "provisionally" approved the guidelines for the pilot of a new Covid-19 alert level

system in Metro Manila.

The proposed system is composed of Levels 1 to 4 and will be implemented on a weekly basis in each city or municipality.

The new approach will do away with the current strategy of implementing city-wide or province-wide communication

nity quarantine throughout the country.

Duterte said the policy shift would help bring down the number of people who are acquiring Covid-19.

"I know that many of you are raring to go to work and conduct your business already but we have to make sure that we cover any contingency so that we may reduce the risk of infection," he said.

He added that his administration has to try new strategies because he does not want people to leave the impression that he failed to deal with Covid-19.

"But the problem is buhay eh (we're talking about life). Iyan ang mahirap (That's the problem). And I would not want to be remembered as one who caused the death of so many," Duterte said.

Duterte acknowledged that the IATF-EID still needs to further refine the guidelines.

The Department of the Interior and Local Government on Friday said the new alert system may be pilot-tested on September 16 to 30.
